Purvi Singh

purvi151020@gmail.com +91 9201403802 Purvi995 Purvisingh6985

Profile Summary

Aspiring Software Developer with a strong foundation in Data Structures & Algorithms and Object-Oriented Programming. Skilled in Python and front-end web development technologies. Passionate about writing clean, efficient code and constantly improving through learning, building, and collaborating. Seeking opportunities to apply technical skills and contribute effectively to real-world engineering projects.

Education

Bachelor of Technology (Computer Science and Engineering) **2024–2028**
CGC University Mohali CGPA: 7.59

Senior Secondary Education **2024**
Campion School Raipur Percentage: 70%

Secondary School Education **2022**
Campion School Raipur Percentage: 85%

Projects

Currency Converter

- Built a responsive Currency Converter using HTML, CSS, and JavaScript for quick and interactive currency conversions.
- Integrated a currency exchange-rate API to fetch and display updated conversion rates dynamically.
- Implemented user input validation, currency selection, and real-time conversion calculations through JavaScript.
- **Tech Stack:** JavaScript, HTML, CSS

Expense Tracker

- Developed an interactive Expense Tracker using HTML, CSS, and JavaScript to manage and monitor personal expenses.
- Implemented features to add, categorize, track, and calculate expenses with automatic balance updates.
- Created a responsive and intuitive interface for efficiently viewing and managing income, expenses, and transaction records.
- **Tech Stack:** HTML5, CSS3, JavaScript

Personal Portfolio Website

- Designed and developed a responsive portfolio website to showcase projects, technical skills, certifications, and achievements.
- Built interactive and responsive UI using HTML, CSS, JavaScript, and Bootstrap.
- Integrated project links and GitHub resources to provide easy access to live demonstrations and source code.
- **Tech Stack:** HTML5, CSS3, JavaScript, Bootstrap

QR Code Generator

- Developed a responsive QR Code Generator using HTML, CSS, and JavaScript to generate QR codes from user-provided text and URLs.
- Implemented dynamic QR code generation and real-time input handling using JavaScript.
- Designed a clean, user-friendly interface with responsive styling for seamless use across different screen sizes.
- **Tech Stack:** HTML5, CSS3, JavaScript

Skills

Technical Skills: HTML, CSS, JavaScript, Python, NumPy, Pandas, C++, Java, Maven, Git, GitHub

Soft Skills: Leadership, Problem Solving, Teamwork, Communication, Adaptability, Time Management

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Organization and Architecture

Achievements / Participation

- Participated in multiple coding contests across platforms such as HackerRank along with several local competitive events.
- Earned Silver Badge in Java and Bronze Badge in Python on HackerRank for problem solving and coding proficiency.
- Engaged in multiple hackathons, enhancing problem-solving speed, teamwork, and building practical solutions.

Certifications

- Project Management — Certified by E-Cell IIT Roorkee
- Google Data Analytics Certification — Google
- Cybersecurity Certification — Edufyi Tech Solutions
- Artificial Intelligence and Machine Learning — TechGyan Technologies at IIT Ropar
- Data Analytics Job Simulation — Deloitte Australia
- Advanced Software Engineering Job Simulation — Walmart
